i36 Design is very responsive with great professionalism. When I asked something not only just about website design but also setting up software, they answered and resolved the issues so quickly which I was facing so long. Eventually, i36 made very nice website for me. After making website I also used SEO services from i36 Design, and the best part is now my website ranking in top 10 in search results on many keywords. I'm very happy to have you. Many thanks!

An International Business Law Firm
dedicated to providing legal service
for Foreign Investment in Japan

Bridging Japan and Foreign Countries.

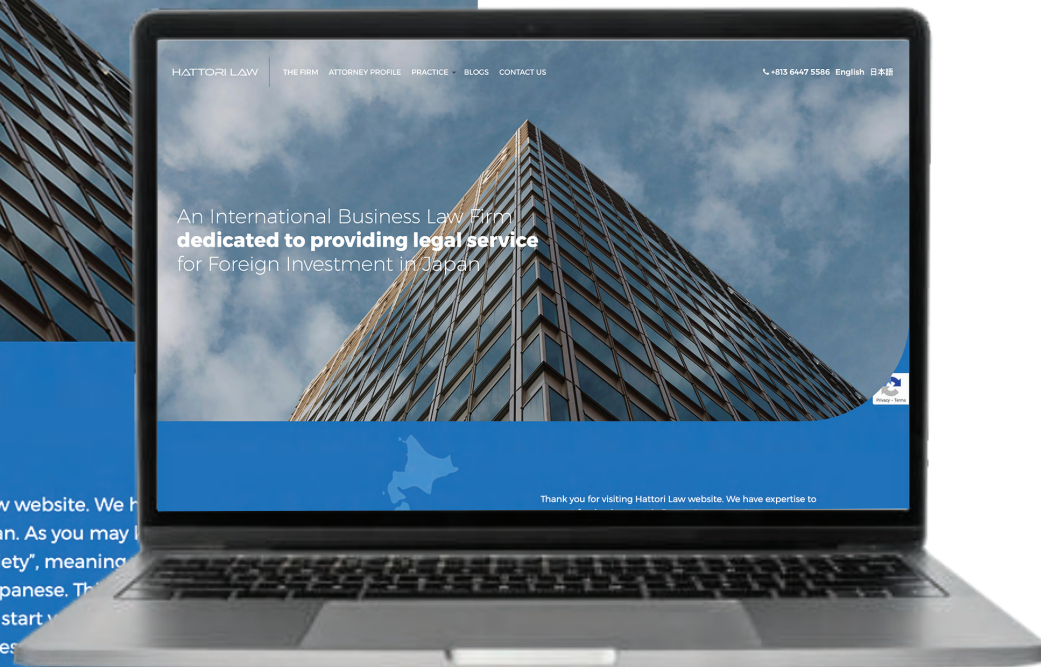

Thank you for visiting Hattori Law website. We help support foreign investors in Japan. As you may know, Japan is a literally "Japanese language society", meaning that everything should be done in Japanese. That might feel it so much when you start your business in Japan. Or you might need business legal advice since it's a little bit different from American or European one.

Hattori Law has a bilingual lawyer qualified in Japan and New York, USA. We have experience to support various companies including construction company, fund, startup, entertainment company, and so forth. Our lawyer has business and public sector experience. We could support you with business, legal, and public perspective.

We do our best to be the right law firm for you.
