I would not hesitate to recommend i36 Design services to anyone. From the outset of our relationship I have found i36 to be extremely responsive, helpful and professional. i36 team is also extremely good at what they does, and built a beautiful & creative website for Serica that I am very happy with in a remarkably short space of time. I have already commissioned i36 to assist with our next project of developing a short marketing video for distribution to our clients. I look forward to continuing to work with i36 Design to Serica continues to grow and develop.
